## Cdcr visiting forms

Updated May 7, 2021 Testing and vaccination requirements are changing. EFFECTIVE IMMEDIATELY, fully vaccinated visitors may present their valid vaccination card indicating they are at least two weeks past the last injection in their vaccination series in lieu of a negative COVID test result. (See more details below). In-person visits will expand to two hours starting May 22-23. Some institutions that weekend may also be eligible to increase the number of visitors per incarcerated person, depending upon public health criteria (See information below). Scheduling in-person visits is changing. Prospective visitors for weekend of May 22-23 MUST schedule in-person visits by emailing the institution directly. Requests can be sent starting May 15 at 8 a.m. (See the scheduling section below). Family visit details will be announced soon. Friends and family should regularly check the Facility Visiting Status page for updates on the status of in-person visiting at each institution. See additional details on the expanded phased approach to the visiting program below. One-hour video visits will continue at 33 participating institutions and 32 conservation camps. Video visits will continue to be scheduled through the Visitation Scheduling Application (VSA). CDCR will be using VSA to schedule in-person visits now through Wednesday May 12, for visits May 15-16. After that time, CDCR will then require visitors to schedule in-person visits through email, to allow for greater flexibility. Institutions will begin to implement the email reservation process for in-person visits on May 15 for a visit to take place the weekend of May 22 and 23. We apologize for any confusion this may cause. CDCR recognizes visiting is an important way to maintain family and community ties. At the same time, our first priority is the health and safety of those who live in and work in our facilities. After suspending in-person visiting statewide in March 2020 at the onset of the COVID-19 pandemic health emergency, the department worked closely with our health care partners to begin reopening institutions for limited in-person visitation beginning April 10, 2021. The department has taken unprecedented steps to prepare and immediately respond to COVID-19, and active cases are the lowest they've been since early April 2020. On May 6, CDCR announced details of a three-phased visiting expansion that will allow facilities to increase the duration of each visit, and the number of visitors allowed to each incarcerated person, including children age 2 and older. In-Person Visiting CDCR is expanding its in-person visiting at 35 institutions as part of its Roadmap to Reopening. The department's plan is a phased and tailored approach anchored in guidelines and guidance from health care. Wardens and healthcare CEOs at each institution will determine the visiting status for each facility within the institution, based on the number of active cases, the time in between active and resolved cases, and other factors based on health and safety. Check the Facility Visiting Status page regularly for updates on the status of in-person visiting at each institution. Under the new guidelines, each inmate will have the opportunity for a free 60-minute video visit. If their facility status allows, they will also be eligible for a two-hour in-person visit. There are no limits to the amount of visits a visitor may schedule; however, incarcerated persons are only allowed one visit per day, either in-person or video. All visiting will be determined based on availability and health and safety considerations. To make your in-person visit go as smoothly as possible, CDCR encourages you to familiarize yourself with our video on in-person visiting and answers to Frequently Asked Questions. The three phases are: Phase I – Reporting three or more COVID-19 cases in a 14-day periodPhase II – No new outbreak for 14 daysFully vaccinated visitors will not be required to show proof of a negative COVID-19 test if they can provide their valid vaccination card indicating they are two weeks past the final injection of their vaccination seriesBeginning May 22 and 23 —Two-hour in-person visitsOne adult visitor for each incarcerated personPhase III – no new outbreak for 28 days. Please note—Some Institutions will be able to move to Phase III as early as May 22-23Two-hour in-person visitsThree visitors allowed for each incarcerated person – of these, two may be children age 2 or olderChild play areas will be available and sanitation protocols followedVending machine food will be allowedBottled water will be provided if vending machines are not available Visiting hours vary, but most facilities will schedule video and in-person visits between 7 a.m. and 4 p.m. on weekends and holidays. Visiting slots will be limited based on space availability in accordance with COVID-19 safety protocols. All institutions will be following public health protocols while conducting visits, including the use of masks, physical distancing and sanitation of each station following a visit. CDCR will continue to enforce visitation rules including appropriate attire. Visitors are encouraged to reference our Frequently Asked Questions for how to schedule visits, and an overview of new protocols, including COVID-19 testing requirements. For more on CDCR's response to COVID-19, please see our COVID-19 information page. Vaccination/Testing Procedures In-person visitors who are unvaccinated MUST provide proof of a negative COVID-19 test taken no longer than 72 hours prior to the visit, or undergo a rapid test prior to admission into the institution. ON-SITE TESTING IS LIMITED AND NOT GUARANTEED. Find a testing location near you. Effective immediately, fully vaccinated visitors may present their valid vaccination card indicating they are at least two weeks past the last injection in their vaccination series in lieu of a negative COVID test result. Visitors must present their vaccination card as proof. These same rules apply to incarcerated people. In addition, incarcerated people are required to have a rapid response COVID-19 test 72-96 hours following their visit. Incarcerated people who decline the test will not be eligible for in-person visiting. Scheduling In-Person Visits at Institutions with Email Please submit requests via email, and include all necessary visitor information to the designated email of the facility for which you'd like to request a video visit. Only those individuals who have already been approved as a visitor may make an appointment at institutions or camps. Step-by-step instructions can be found here. VPASS will no longer be used to schedule a visit. Email reservations will be taken weekly, beginning each Saturday at 8 a.m. through Monday at 8 a.m. for visits the following weekend. Please note, emails received outside the timeframe allowed will not be rolled over to the following weekend for review. Instead, a new request must be submitted during the following week reservation timeframe. Not all reservations may be accepted because of space and equipment limitations. Visitors must provide the following information in their visitation email request: Inmate NameInmate CDCR NumberApproved Visitor(s) Full Name(s)Date of BirthValid Identification Type and NumberRelationship to the InmateEmail AddressPhone Number Scheduling Video Visits at Institutions using Visitation Scheduling Application (VSA) CDCR continues to offer real-time video visiting at 33 prisons and 32 conservation camps as a safe way for incarcerated people to see and speak with their loved ones. California State Prison – Corcoran and California State prison – Sacramento, are the only institutions not doing video visits at this time. VSA allows approved visitors to easily schedule their own visits and receive instant confirmation of their request. Requests for a visit can be made using VSA beginning eight days prior to the date of the visit. Approved visitors have five days to schedule a visit using VSA for a visit on the following weekend. For example, the scheduling window for a visit to take place on Sat., May 15 is from 12 a.m. May 7 through 11:59 p.m. May 11. For a visit on Sun. May 16, the scheduling window is 12 a.m. May 8 through 11:59 p.m. May 12. Additional institutions that will be using VSA for in-person and video visiting reservations will be announced in the coming weeks. Connectivity issues will not allow CDCR to offer VSA to schedule fire camp video visits. A step-by-step guide for how to use VSA is available on CDCR's website. Video Visiting Once connected to the Webex system, visitors should ensure they are in a location where they will be able to hear throughout the visit, as the incarcerated person's mask must remain on through the duration of the video visit. Before staff connects you to your loved one, approved visitors should log into the video visit at least five minutes prior to the scheduled start time and have valid identification ready to present to staff (including minor(s) birth certificates). To maintain order and to ensure safety, rules established in California Code of Regulations, Title 15, Article 7 Visiting, still apply during all video visits with the exception of dress code color restrictions. This also includes that there is absolutely NO recording of video visits. Any visitors caught violating these restrictions could have their visiting privileges suspended. Misconduct by any party during a visit will result in termination of the video visit, and may include disciplinary action. Information about attire and other visiting guidelines are available at . All institutions will be following public health protocols while conducting video visitation, including physical distancing and sanitation of each station following a visit. Visit our website for additional information on CDCR's COVID-19 response. Visitors approved for video visitation will receive a confirmation email that includes the visit's time and date. The dates and times are assigned and cannot be changed if you cannot make the appointment. You may request a new visiting session during the next open visiting scheduling timeframe. Also included in the confirmation will be a link to join a visiting session as well as instructions on how to begin a video visit. You may also check out the Webex How-To resource for some helpful tips and a step-by-step guide on how to access the Webex video visit. Scheduling Video Visits at Conservation Camps with Email CDCR has announced video visiting at 32 conservation camps, also known as fire camps. Friends and family may schedule visits starting at 8 a.m. on Saturday through 8 a.m. on Monday for visits the following weekend. Please submit requests via email, and include all necessary visitor information to the designated email of the camp for which you'd like to request a video visit. As with all visitation at our institutions, visits may be canceled at any time for health and safety reasons. Please check the Visiting Facility Status for updates. Holiday Video Visiting A request to visit on an approved holiday may be submitted seven days prior, between the hours of 8 a.m. and 4 p.m. Example: An approved visitor wanting to visit on Friday, Dec. 25, 2020 (Christmas Day), would be allowed to request a video visit on Friday, Dec. 18, 2020, between the hours of 8 a.m. and 4 p.m. Recognized holidays are New Year's Day, Independence Day, Thanksgiving Day and Christmas Day. Using Webex Video System Video visits will take place using Webex, which can be accessed for free on devices with internet and camera capabilities (i.e., smartphone, tablet, laptop, desktop computer). Incarcerated people will use laptop computers in designated visiting areas. CDCR will only provide laptop computers to inmates; no equipment will be provided to visitors by CDCR. View more information on the video visitation technology. Locate Inmate Use the Inmate Locator to find an inmate and in what facility they are housed. Check Visiting Status You can find out the visiting status of a CDCR facility by checking the VPASS Visiting Status. You should always do this the day you plan to visit, because visitation can sometimes be unexpectedly cancelled. Contacting an Incarcerated Person Individuals are free to contact any state prison inmate by mail, and electronic mail is available at some institutions. See our website on how to contact an inmate. You cannot directly call an inmate. However, most inmates have access to telephones and can initiate outgoing collect calls. Learn how to receive a call. Sending Money and Packages Sending money to an inmate is permitted. Learn how to send money. How to Send a Package to an Inmate.You can send Inmate Quarterly Packages through authorized private vendors. Learn how to send packages. You can send Religious Property Packages through authorized private vendors. Send Religious Property packages. Inmate Family Councils Statewide Inmate Family Council Local Inmate Family Councils (IFC's) are a gathering of family and friends of the incarcerated who meet regularly with Wardens to support visiting since keeping strong family connections with loved ones is a powerful rehabilitative tool. These IFC's promote visiting by clarifying rules and regulations as well as discussing health, education, vocational training, packages, books, and related issues. For more information on connecting with a local IFC, please visit the Statewide IFC website. Throughout the roll-out of the video visitation program, CDCR will be collecting feedback, questions, and concerns on the process from the IFC's so the department can work to create better solutions and processes for this new program. Visitation Guidelines Refer to the Department's current policies and regulations in Title 15 and the Department Operations Manual if you want to know more.
