[23] Possible health problems Renal disease Polycystic this disease forms a cyst The cat's kidney, causing organic failure. [24] Polycystic kidney disease can be detected by genetic tests or echography. The Blue Shorthair, the crosses of the British with the Russians were also common. [4] A young British blue male showing the typical copper eyes of With 'blue' skins After the war, in an attempt to maintain the breed's standard, the GCCF decided to accept only third-generation Shorthair Persian/Brit crosses[citation required] This contributed to another shortage of pure reproductive material ³ World War II, at which time the Blue Persians and Russians were reintroduced into the mix.[citation required] BritÁnicos Shorthair breeders also worked with the French Chartreux ©s, another ancient breed, which though genetically unrelated to the british blue, is a very similar cat in appearance. They're more used to staying with people than squatting the . Although the brit loves to play, she doesn't need attention³ not for hours. Likewise, they prefer the feeling ³ having their feet on the ground. Treatments include anti-inflammatory and anti-³ drugs.[30][31] References ^ "GCCF Online > Cat Breeds > British Shorthair". They have a low voice and a moderate level of activity. Personality: The British Shorthair is a very nice cat to have as a companion. 25 (4): 866Áe 871. It gets much longer and thicker during the winter. "n=69, median=11.8, IQR 5.8-16.3, range 0.0-21.0" ^ Egenvall, A.; No. dtvedt, A.; HÁ Ác ggstrÁ m, J.; StrÁ Ác m Holst, B.; MÁ Ác ller, L.; Bonnett, B. G. Require only a minimum grooming and lead well to be kept as cats only indoors; however, they may be prone to obesity unless you are careful with your diet.[4][11] They are silent and vigilant,

but if you trust their dueÀ±os, you will quietly follow the dueÀ±os activities Å and stay with them. In addition, 6.4% of men and 3.5% of women were considered to be Ecuadoréan[20]. MCH testing of males used for crÅa is now mandatory for breeders under the member danÅ© of Fife, Felis Danica.[21] The breed is believed to have "oicini" "oicini" > eninO FCCC" Å sadazilana senoicalboj sal ne DKP ed senoicatam sai ed avitacifingis n"Åcuminsid anu odavresbo ah NDA ed sabeurp ed oirotarobal nU J2J,JKPI acitsÅuqijop laner dademrefne ed ogsein ota He worked to restore the true British type, and at the end of the 1970s, the British Shorthair distinctive had reached a formal recognition of the Cat Association (CFA) and the International CAT Association (TICA). [4] According to the 2013 GCCF registry data, it is once again the most popular pedigree breed in its birthplace. [9] Description N appears a fully mature British blue male, showing the heavy features features and the "crunchy" texture of a British blue man's coat, which shows the classic "Cheshire Cat Smile" , so the race is famous, British Shorthair is relatively powerful. Looking at a large cat, with a wide chest, strong thick fit legs with rounded legs and a tail of average length with rompous tip. Cystitis is difficult to cure. [28] [29] Strins, bacterial infection and bladder stones generally cause cystitis. It is known in the history of luxury cats like the "Father of the cat cat". He not only was the first professional breeder, but also determined the rules for the first cat show, which was held in Great Britain in 1871. Committee of British British Shorthair Counselo. British Shorthair has a wide chest, muscle neck, strong mandulums and a well-developed muzzle. PMID - 19780926. On the basis of the representations of the artists, the "Modern British Shorthair does not change this initial type. [4] An early example of the blue Shorthair" English type ", from the Frances Simpson book. Cat, 1903, the selective breed of the best examples of the type began in the nineteenth century, with Å ©is in developing the unusual gray variant Blue-gray called "Blue British" or "English Type" (to distinguish it from Russian type "finer"). Recovered on July 27, 2014. (2011). ^ Geyer, Georgie Anne. Throughout the centuries, her naturally isolated descendants became cats large and sturdy with a short but very thick coat, to better withstand conditions on their native islands. The association ' cats cats reads: "When gracelessness is observed, the British Shorthair is duly embarrassed, quickly recovering with a 'Cheshire cat smile'." [2] History The origins of the British Shorthair most likely date back to the first century AD, making it one of the most ancient identifiable cat breeds in the world.[3] These cats were imported by the Romans who kept them to keep the camps clear of snakes, mice and insects. Retrieved 29 April 2021. ^ "British Shorthair" . p. Å Å219. Tendency to Shed: Moderate Length: Short, Medium Characteristics: Straight Colors: White, Blue, Black, Cream, Red, Brown, Silver, Cameo, Bluecream, Tortoiseshell, Torbie, Smoke, Shaded Pattern: Solid color, Tortoiseshell, Bicolor, Tricolor/Calico, Tabby, Smoke, Shaded Less Allergenic: No Overall Grooming Needs: Moderate, High Club recognition: Cat Association Recognition: CFA, ACFA , FIFE, TICA Prevalence: So-so The British Shorthair is a medium-sized to large cat andÅ Åshe is a very powerful one.Å Åshe is heavily muscled and has heavy boning.Å ÅShe has a rounded, thick appearance. At one time, it was known as the British Blue, but since it comes in a variety of colors, it is called either the British or the British Shorthair. Despite her heavy boning and musculature, you want to make certain she keeps a proper weight and does not get out of condition. International Cat Care. CatTime. The new British Shorthair was featured at the first-ever cat show, organised by Weir and held at the Crystal Palace in London in 1871, and enjoyed great initial popularity.[5] By the 1900s with the advent of the newly imported Persian and other long-haired breeds, the British Shorthair had fallen out of favour, and breeding stock had become critically rare by World War I.[6] At least partially to alleviate this, British Shorthair breeders mixed Persians into their bloodlines.[7] The genes thus introduced would eventually become the basis for the British Longhair. History: The Shorthair, although originally from the farms and streets of Great Britain, too is considered the first cat from the cat. The texture of the coat is relatively hard, since it is understood as protection for the cat. The British are a fiercely loyal, careful cat and will join each of their family members. ^ a B "CFA: Introduction to British Shorthair". Some of the symptoms are frequent miccint and that they have blood in the urine of cats. December 17, 2019.
